Studio(s): [Universal Studios](#) [7]

Director(s): [George Lucas](#) [8]

Genre: [Comedy](#) [9]

Running Time: 110 minutes

[Official Website](#) [10]

PG

As I sat down, for what would mark my first time ever seeing George Lucas' star studded classic American Graffiti, I wondered what kind of transfer Universal would bring. My history with the studio has been up and down as far as video quality in surprising ways. Their extremely unnecessary American Pie The Book of Love BD was immaculate while their much more lucrative Meet The Fockers was poorly. I took into account that Graffiti is a film that was released at least three years before I was born and left a little room for leeway and what I got was what I would consider a definite improvement over the films DVD copy but far from a definitive version.
