America's Next Top Model

Season: 13

Starring: [Tyra Banks](#) [2]

Network(s): [The CW](#) [3]

This season on "America's Next Top Model" all the contestants must be 5'7 or shorter in attempts to open the door to the model industry to a whole new group of girls. But really height is the only difference there is. The girls are all still pretty or have very unique looks and they all are willing (or at least say they are willing) to do anything to make their modeling dreams come true.
