I will admit when “Dragon Ball Z Kai” came across my desk for review I just rolled my eyes. Let’s face it DBZ has been released so way too many times already: season box sets, dragon box sets, various individual volumes, on VHS, DVD & Blu-Ray and they are always claiming it is somehow “different” from the previous releases. And for the most part all I was able to tell that was different in all those releases were the covers, occasional “bonus features’ (textless songs & trailers), and every once in awhile you might get a cuss word. All these releases are pretty much just bleeding DBZ fans dry and

costing them tons in the process.
