Xavier's School For Gifted Children has been destroyed, Professor X is kidnapped, and all mutants are being hunted down. Working together and headed up by Cyclopes they manage to find Professor X and attempt to start rebuilding. But their faces have been all over TV so when Rogue, Shadow, Jean, Cyclopes, and Spyke return to high school they face all new challenges and run the risk of being expelled if they use their powers. Nightcrawler on the other hand has only been seen as blue and furry so with the use of his shape-shifting band he maintains a normal appearance out of fear.
