Apparently Electronic Arts' stranglehold on NFL games doesn't extend to surreal kid's games. The officially licensed Backyard NFL Football is a fun, slower paced football game for those that are too young or not versed on the technical aspects of Madden's hugely popular series. Featuring all the NFL teams, a small number of actual athletes (as big-headed children, of course), the ability to create custom players, teams and seasons, the only thing missing is EA's custom dynasty mode but it's not enough to take away from the pure enjoyment this game offers.
