Genre: [Role Playing \(RPG\)](#) [1]

Platform(s): [Playstation 3](#) [2]

Players: 1-6

[Official Website](#) [3]

In February 2010, the international version of the PS3-exclusive JRPG White Knight Chronicles was released, over a year after the game first appeared on store shelves in Japan. Despite selling well in its native country, the title failed to truly strike a chord with critics and gamers in the West, due to its lacklustre story, disappointing online mode, and several other issues.
