Yep, this was pretty much nail on head with it. Did you find Cavill to look odd?

Ok, I can't comment on whether or not Cabin in the Woods is or not since I have yet to watch it.

But I can say that I've been told multiple times by multiple people that it is great and a must watch

for me. I have it on my list to watch on Netflix. But I can say something about the Avengers, it was... Very cool new work and I might check him out since I'm looking for someone new. Also, what did the drawing look like before the finished work? And what was his pricing?
